Annual Yield 1974

Dedication

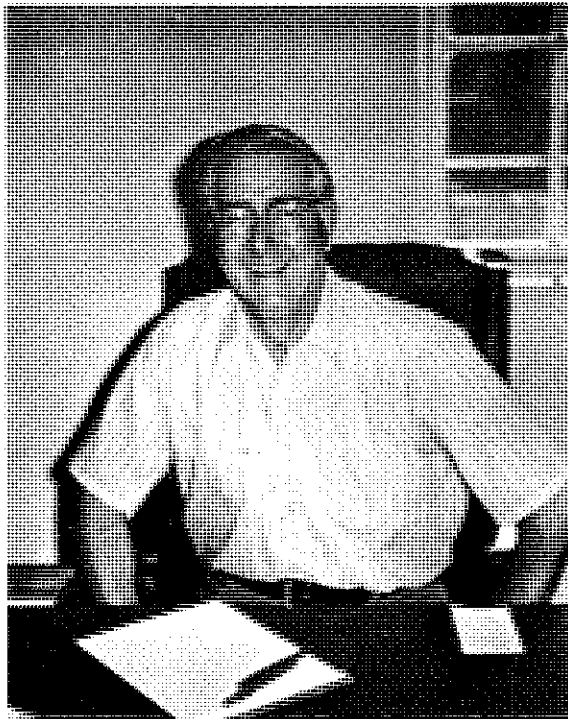

It is with great pleasure we dedicate the 1974 Annual Yield to Dr. William A. Groman, who has taken the time and effort to stand behind the Forestry Club as advisor for the 1973-4 school year. Although Dr. Groman is not known as being outspoken, when he does talk, he commands everyone's attention. Many times, when the club has gotten bogged down in detail, Dr. Groman has stepped in with a few words of wisdom and cleared the air.

Because he encourages students to formulate their own ideas and opinions, his instruction and advice has been of great value to many students. You can almost always find Dr. Groman in his office, ready to help.

He received his doctorate from Oregon State University in 1972 and began teaching at N.A.U. in 1973.

Thank you, Dr. Groman, for your help and support!!

Each year seems to go a little faster. It doesn't seem possible that the Annual Yield is about to go to press again.

It's been great to hear from or see as many alums as have contacted us this year. We always enjoy hearing from you and appreciate your assistance with job information. Please keep in touch.

This has been a busy year. Our senior class numbered forty-two, half of whom finished at mid-year. Placement has been running better than average. The junior class was the largest in our history. Seventy-five started Forest Science "A", which created many problems. Hopefully next year we'll have this situation in control and the numbers back to a more reasonable level.

Our congratulations to the staff of this year's Annual Yield.

Dr. Charles O. Minor

President's Message

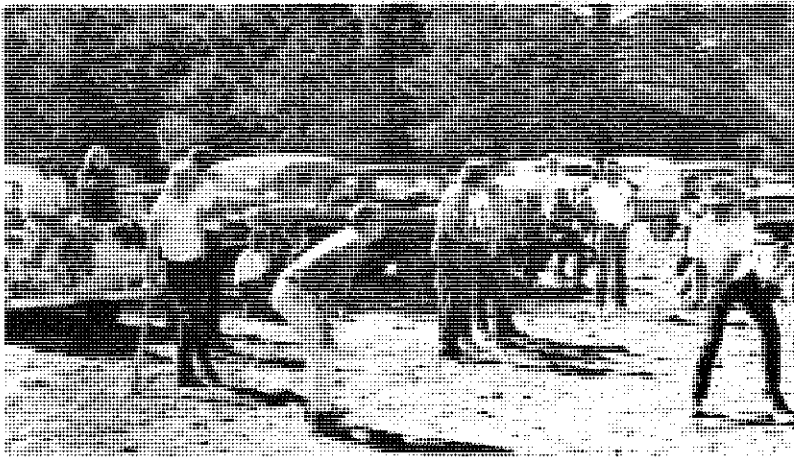

To the Club;

I would like to start out by expressing a deep appreciation to all those persons in the Forestry Club who helped to make the events of this past year and this club a success. It was asked to me once if running this club was hard. I told this individual no because of the support and enthusiasm of most of the club members, it was fairly easy. I feel that this enthusiasm was very evident in our standings in intramurals, our participation in Conclave, Fire crews, Field Day, Homecoming, and all other events of the past year.

Once again I would like to thank the club for a great year and am looking forward to seeing the old and new faces next year.

Sincerely,

Ben G. Blackwell,
N. A. U. Forestry Club President

More Arizonans carry Valley Bank Master Charge Cards.

Valley Bank checking accounts are the most popular.

We approve more home modernization loans.

More Arizonans depend on Valley Bank for trust and estate matters.

Valley Bank lends more money to help Arizona's ranchers and farmers.

More business and professional people benefit from our unique business systems.

Valley Bank approves more student loans. We've helped thousands of young Arizonans get an education.

We're sure we can do more for you, too. Just ask.

WHEN YOU NEED

PRISMS

Insist on the finest quality
Insist on CRUISE-MASTER

That's what you get with Cruise-Master, the original exact factor prism. Made from the finest amber glass, it is glare-proof and extremely accurate—within 1% plus or minus of the BAF rating on each prism. And we grind any size prism to your order—in either clear, amber glass or in English or Metric factors.

For the finest quality, use Cruise-Master. Every prism with the C/M brand carries a money back guarantee—so play it safe, with a Cruise-Master.
