

2014 ANNUAL YIELD

NORTHERN ARIZONA UNIVERSITY
SCHOOL OF FORESTRY

Message from the Executive Director:

Welcome to the 2014 edition of the *Annual Yield*. It seems increasingly rare that academic units such as schools and departments do their own yearbooks, but I think it is a valuable service to our students and a great way to record some of the School of Forestry's history. After a hiatus of a decade or so, we brought back the *Annual Yield* in 2009 and have kept it going ever since, thanks in particular to our dedicated student services team. This year, special thanks go to Susan Bierer, our Student Services Coordinator, and Stephanie Polk, Susan's student assistant. This is the third yearbook that Stephanie has helped with but, sadly, also the last.

Stephanie is graduating this year and moving on. She has been a great person to have on our team and I will miss her cheerful and competent presence, as will many other faculty, staff, and students.

It's getting to be almost routine to convey certain types of good news in this message, such as the success of our Forestry Club/Student Chapter of the SAF. For the second time in a row and the third time in four years, this group has won the SAF's Outstanding Student Chapter award! It's certainly no accident that this happened since the chapter continues to be extremely active in all kinds of ways. One type of activity that I haven't emphasized much in past messages is the community service that our students, staff and faculty perform, be it through the SAF Student Chapter, one of the other student organizations, or as individuals. You can check out the pages on Kids for Conservation, Science in the Park, and the Bud Tank Cleanup for good examples of this type of activity.

When I glance through the pages of this and past yearbooks, I can't help but feel extremely privileged to serve as the School of Forestry's Executive Director. During April of 2013, when we hosted the SAF re-accreditation team for their site visit, one of the team member's parting words to me was that "you have a good thing going here." While we are always looking for ways to improve, I can't help but agree with this assessment!

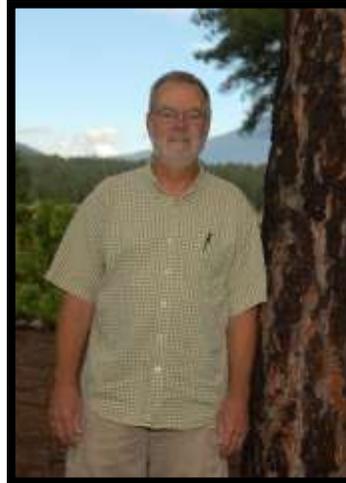

A handwritten signature in black ink that reads "James A. Allen". The signature is written in a cursive, flowing style.

Friday May 9th, 2014

Congratulations Graduates and Good Luck in your future endeavors!
You will forever and always be a Lumberjack ...

In Dedication & Memory Of..

Kay Hafen

This page is dedicated to the memory of Mr. Kay Hafen, who passed away in December of 2013. Kay, along with his wife Irene, have been great supporters of our school and its students. Among many other things, they established the Kay R. and Irene S. Hafen Forestry Scholarship in 2000.

Nine scholarships totaling \$23,000 (\$3,000 to five Graduate students and \$2,000 to four Undergraduates) are awarded to support student in their Junior, Senior or Graduate years of studies. Preference is given to students showing promise of significant forestry contributions after graduation, who exhibit leadership qualities, and have ability to interact positively with students, faculty members, and the community.

Kay & Irene Hafen

Kay helped our school in so many ways over the years, including hiring our students for summer jobs and establishing the scholarship in his and Irene's name. I always enjoyed my visits with Kay at his and Irene's property in Munds Park, where I could see all the good work our students did over the years. Kay was a true gentleman and a great supporter of education. He is sorely missed.

- James A. Allen, Professor and Executive Director
